The TPF Balanced Fund holds interests in the other TPF funds, in proportions allocated as determined by the Investment Committee of TPF's Board of Trustees.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Portfolio Target Allocations

The TPF Balanced Fund is a "fund of funds" that holds interests in most of the TPF Funds (excluding TPF's Money Market Fund) in proportions allocated as determined by the TPF Board of Trustees' Investment Committee. Effective June 1, 2021, the policy allocation was set at 31.5% in the TPF Large Cap Equity Fund, 9.0% in the TPF Small Cap Equity Fund, 16.5% in the TPF International Equity Fund, 6% in the TPF Emerging Markets Equity Fund, 21% in the TPF Fixed Income Fund, 5% in the TPF Real Estate Fund, 5% in the TPF Real Assets Fund, and 5% in the TPF Diversified Strategies Fund. In addition, the Fund currently has a small allocation (about 1%) in producing oil and gas royalty interests. The spend rate is set each year and is currently 4.0% per annum of the average of the monthly values of the Fund for the preceding three years.

Texas Presbyterian Foundation's Large Cap Equity Fund (formerly known as the Diversified Equity Fund) is a broadly diversified portfolio comprised predominantly of U.S. and some global stocks. It seeks opportunities for long-term capital growth, while avoiding speculation and undue risk. Over three-to five-year market cycles, the Fund's goal is to provide returns exceeding the Russell 1000 index but with less volatility risk. The Fund's two primary components are the TPF Growth Equity Fund (40%) and the TPF Value Equity Fund (40%). Approximately 20% is in a style neutral S&P 500 index portfolio. While this is the normal allocation, at times as much as 25% of the Large Cap Equity Fund may be allocated to one or more managers employing market neutral, indexing, hedging, absolute return, or similar alternative strategies. These are pursued when the TPF Investment Committee believes it may enhance returns, reduce benchmark tracking error, and/or reduce volatility and risk. The Large Cap Equity Fund offers the benefit of a broad diversification of the blend of equity investment styles. The Growth Equity Fund and the Value Equity Fund may also be accessed directly by those partners who wish to follow a different equity allocation policy.

The Growth Equity Fund is managed by two outside professional advisory firms: William Blair Investment Management, LLC of Chicago, IL and Sands Capital Management of Arlington, VA.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Portfolio Target Allocations

Texas Presbyterian Foundation's Growth Equity Fund is a broadly diversified portfolio of mostly U.S. and some international stocks that seeks to provide opportunities for long-term capital growth, using two distinct approaches to large cap growth equity investing. The Fund's goal over three to five-year market cycles is to provide returns that exceed a market benchmark (the Russell 1000 Growth Index) but with lower risk than the benchmark as measured by volatility of returns.

Management of the Growth Equity Fund is divided between two outside professional advisory firms: William Blair aims for consistent long term returns through a research-based investment process in quality growth companies, and Sands Capital Management, a somewhat traditional "bottom-up" stock picker using significant proprietary research to create a concentrated portfolio focused on the firm's best ideas among quality large cap growth equity businesses.

Although most clients will prefer to benefit from the broad diversification of the blend of investment styles available through the Large Cap Equity Fund, the Growth Equity Fund may be accessed directly by those clients who wish to follow a different equity policy.

The Value Equity Fund is managed by Eagle Capital Management of New York, NY and LSV Asset Management of Chicago, IL.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Portfolio Target Allocations

Texas Presbyterian Foundation's Value Equity Fund is a broadly diversified portfolio of mostly U.S. and some global stocks that seeks to provide opportunities for long-term capital growth, by using a value-based approach. The Fund's goal over a three-to-five-year market cycles is to provide returns that exceed a market benchmark (the Russell 1000 Value Index) but with lower risk than the benchmark as measured by volatility of returns.

Half of the fund is managed by Eagle Capital Management who employs a bottom up, research-driven approach to find under valued growth companies. The remaining half is managed by LSV Asset Management who employs a disciplined, quantitative, 'contrarian' approach.

Although most clients will prefer to benefit from the broad diversification of the blend of investment styles available through the Large Cap Equity Fund, the Value Equity Fund may be accessed directly by those clients who wish to follow a different equity allocation policy.

The Small Cap Equity Fund is managed by Kayne Anderson Capital Advisors of Los Angeles, CA., Burgundy Asset Management of Toronto, Canada and Disciplined Growth Investors of Minneapolis, MN.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Portfolio Target Allocations

Texas Presbyterian Foundation's Small Cap Equity Fund is a portfolio of smaller U.S. firms allocated among managers with distinct growth, value, and core strategies. The Fund seeks to invest in the next generation of blue chips, believing many smaller companies have potential to deliver above-average revenue and earnings growth. While the Fund may have the potential to produce higher returns over time, it will also experience greater volatility than a core equity portfolio, such as the TPF Large Cap Equity Fund.

Approximately one-third of the fund is managed by Kayne Anderson Capital Advisors. Kayne Anderson uses a disciplined "rising dividend" strategy with significant emphasis on value and quality. Another third is managed by Burgundy Asset Management, who does "bottom up" research to find value companies at significant discounts to private market value. The remaining third is allocated to Disciplined Growth Investors who seek quality small cap growth companies with superior earnings growth projections.

The International Equity Fund is managed by Silchester International Investors of London, UK, Artisan Partners of San Francisco, CA and Harris Associates of Chicago, IL.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Allocations by Country

Texas Presbyterian Foundation's International Equity Fund is a broadly diversified portfolio of large, high quality, non-U.S. companies that are either ordinary shares traded on securities exchanges around the world or American Depository Receipts (ADRs) traded on U.S. exchanges. Geographic, industry and currency exposures are carefully monitored, with limits placed on some individual markets and industries. When appropriate to a particular risk, currency hedges are made. The International Equity Fund seeks long-term growth of capital with no greater risk, but different performance characteristics, than a portfolio of high-quality U.S. securities. 50% of the fund is managed by Silchester International Investors, who seeks to buy financially strong companies at cheap valuations—focused primarily on the developed world. Artisan Partners manages 40% in a fund which invests in growth-oriented international companies selected from themes and industries that present accelerating growth prospects. Another 10% is managed by Harris Associates, who invests in securities that trade at a significant discount to the estimate of intrinsic value, intrinsic values that grow with time and have shareholder-oriented management teams.

The Emerging Markets Equity Fund is managed by Aberdeen Standard Asset Management of Philadelphia, PA. and Allspring Global Investments of Boston, MA.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Allocations by Country

Texas Presbyterian Foundation's Emerging Markets Equity Fund seeks to provide enhanced long-term capital growth as part of a broadly diversified portfolio by investing in stocks of companies domiciled in countries with less developed economies, in regions such as Central and South America, Africa, Asia, and the former Soviet bloc. Half of the Emerging Markets Equity Fund is managed by Aberdeen Standard Investments Inc., who invests in smaller companies in markets with greater political and economic instability, presenting more exposure to operational and liquidity risks than in developed countries, and with currency risks that are not easily hedged. Beginning June 2018, half the Emerging Markets portfolio is managed by Allspring Global Investments. The Strategy's investment philosophy focuses on identifying quality companies trading at attractive valuations and displaying underestimated growth potential.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Target Allocations

Texas Presbyterian Foundation's Fixed Income Fund is an actively managed and diversified bond portfolio. The "core plus" of the fund (40%) is in U.S. Government and investment grade corporate, mortgage, asset-backed and limited high yield securities managed by Barrow Hanley Global Investors. The remainder is held in a diversified mix of fixed income strategies and assets including government, corporate, high yield domestic, high grade foreign and emerging market bonds. BlackRock of New York City, NY, manages 20% in their BlackRock Strategic Income Opportunities strategy. Loomis, Sayles & Company of Boston, MA manages 20% in a core plus strategy. The remaining 20% is also in core plus strategy managed by Western Asset of Pasadena, CA. The objective of the fund is to produce a total rate of return, net of expenses, which exceeds the Barclays Capital Aggregate Bond Index and is ranked above the median performance level of the universe of comparable funds.

The Short Duration Income Fund is managed by Barrow Hanley Global Investors of Dallas, TX.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Target Allocations

The TPF Short Duration Income Fund is a diversified portfolio of high quality short-maturity government and corporate bonds, mortgages and other fixed income instruments seeking reasonable current yields consistent with expected low volatility. The fund has a short-weighted average duration (usually within 0.25 years of the Bloomberg 1-3 Year Government/Credit Index) and, other than mortgage “passthroughs,” will not own securities with maturities longer than five years. This defensive strategy is designed for investment of reserves and other low risk funds that may need to be expended within one to three years, or to be used in combination with the Fixed Income Fund to shorten the average duration and reduce the volatility of a permanent fund. The Short Duration Income Fund is managed by Barrow Hanley Global Investors.

Past performance is not necessarily indicative of future investment results. TPF neither expressly nor impliedly guarantees any specific investment return.

Target Allocations

Texas Presbyterian Foundation's Real Assets Fund is a diversified portfolio of liquid, inflation-sensitive assets/strategies. Unlike traditional assets, Real Asset strategies tend to be positively correlated with unanticipated inflation. Real asset class historically demonstrates a low correlation with other traditional asset classes. This low correlation provides a complement to more traditional classes and provides favorable returns. The Fund currently consists of the following: Floating Rate Debt, TIPS, Global Infrastructure Equities, Commodities, MLPs, Natural Resource Equities, Agribusiness, Timber and Global REITs. However, this allocation has the potential to change over time as the Investment Committee deems necessary. Currently 85% of the Fund is managed by Principal Global Investors LLC and 15% is managed by Lazard Asset Management.
